

# EU-GDPR

## How to get IT there?

Complying has not looked so easy

The EU General Data Protection Regulation (GDPR) applies to all organizations that collect personal data of EU data subjects. In addition, any organization that may, offer goods or services, process data or monitor the behavior of EU data subjects must comply with GDPR wherever they are located globally.

What Needs to change?

Focus on personal privacy

Set up Controls and Notifications

Establish Transparent Data Policies

Educate on Privacy, Audit policies & more
